“Our goal is to be the most responsive, reliable, and flexible full service provider of custom manufactured parts, assemblies, tools & equipment for production and production support.”

Best Service Provider of Machined and Fabricated Solutions

SM&W at a GLANCE

SM&W is a custom fabricating, machining, and manufacturing shop. Our extensive customer list includes the semiconductor, oilfield, governmental, medical products, transportation, construction and boating industries to name a few. Our slogan, “*Best Service Provider of Machined and Fabricated Solutions*” has been earned, not created. It has been earned with good customer service, high quality work, short delivery schedules, and finally, reasonable prices. This positioning has not only sustained the company, it is leading the way for our growth.

WHY SM&W

Our expanded facilities and skilled craftsmen and staff are ready to serve you. Whether large orders or small orders that you need tomorrow or two days ago, with perfect drawings and specifications or a napkin sketch, we can meet your needs with the service and attention you expect to have. The key benefits to SM&W are:

- Industry leading customer service
- Diverse capabilities
- Highly skilled craftsmen

- High adherence to schedules with shorter lead times
- Ability to customize equipment and services to meet most customers needs
- Guaranteed high quality results
- Installation and field support
- Experienced, comprehensive engineering support
- Turnkey project service
- Comprehensive warranty and after sales support
- 25 years of proven experience and market knowledge
